**SOAPBOX** : No BIG score here but I had a BIG time. My first CQP, got my ticket in Dec '98. I

really wanted to get all 58 counties but came up short. Maybe next year!

**SOAPBOX :** I was just fooling around and passing out a few points to those I heard on 10 meters. I am attaching the 20 contacts I made. An error is noted on the #10 s/n – I also noted a probable time error on the last 3 – this is a new logging program, and I must have loaded the last three into the manual entry mode and not set the time... an old dog trying to learn new tricks (HI). I hope this comes across

without skewing on the page too much. Next year maybe I will load TR or NA and do it right!

**SOAPBOX :** Great fun! First CQP since the late 70's when as a kid, I used to battle it out with NA6T over in Mendocino county (Bob always won). With DE, VE2, and WY out of the way, I thought a sweep would be easy. I ended up missing Hawaii and Utah. Doughhhh!!!! Ten meter CW sometimes seemed like meteor scatter on Sunday. When I'd ask for a fill, many stations would QRS which made things tougher. A couple of 80 WPM bursts would have been the ticket with the Q5/Q0 QSB. TRLog won't let you enter a DX QTH, so all DX got logged as Calaveras county and

I had to edit the log to add the country after the contest. My Goal for next year: get a real antenna and a QSK amp so that I can be competitive. Low power into a low wire doesn't cut it.

KU6J
